ELEVATE - GRAPHOLOGY JAN'24

Insightful Graphology – Handwriting analysis session, revealed a great deal about a person’s personality, traits, and habits.

Graphology is an art of studying and deciphering handwriting and inferring one’s personality and behaviour patterns.

We had such an interesting session by Mr. Niranjana Behera in one of the 4th Saturday initiatives of Delhi Dynamic club. It was indeed insightful to learn about the style of writing, an alphabet can denote, so much about oneself. Many of us got useful tips to rework on some of our alphabets.
